FURTHER PAPERS.

	Number.	Series.	Date.
Forests - planting of cashew mango and Dhupa trees — South Kanara dimtrict proten-			

To

The Hon'ble Minister for Agriculture,
Fort St. George,
MADRAS.

Memorial of villagers of Maladi, Sonandur, Kukkala and Parenki villages, respectively, sheweth as follows:-

8-AUG1954

106196

1 A surprise has come upon the undersigned villagers in the shape of the Forest Department trying to encroach upon the cattle grazing ground of great importance to the villagers. Plot comprised in Survey No. 30/1 of Maladi village is about 400 acres. A Plan of the portion relevant for consideration of matters submitted in this memorial is enclosed. It contains about 60 acres. From very ancient times plot enclosed by green line with black lead pencil line crossing has served as pasture ground for all the cattle of Maladi, Sonandur, Kukkala and Parenki villages. About 2000 cattle belonging to 400 households have all these years been grazing on these grounds. It also contains a Panchayat road as well as some foot-paths. Plots enclosed by red line are all kadim wargs abutting near the area. Needless to say that there are very extensive warg lands to which kumki privileges are attached. Absolute rigid application of the kumki rules cover up the portions marked blue. But on a true and correct interpretation of the kumki right intended for affording facilities for green manure much larger areas will be required. Government has been giving every encouragement to the production of compost manure for which large quantities of leaves are wanted. One naturally takes it for granted that the policy of the

Government is to encourage the villagers to rely on this and avail themselves of the facilities of taking green leaves from the adjoining unassessed waste. It may kindly be remembered that according to early decisions of the High Court it was held that all land in the District as also in North Kanara as well as in Malabar was private property of the individuals and the government had no right except to levy Revenue. This,however, has since been revised. But mode of enjoyment has continued as before.

2. Recently the Forest Department has commenced making preparations to plant some cashew, mango, doopa and like trees. Work has not progressed. It is just in its initial stage. Not an amount exceeding a thousand rupees has been spent till now. The people were taken by surprise in this. Immediately the Maladi Panchayat passed a resolution on 30-5-1954. A copy of this resolution with a true translation is also enclosed. Kind attention of the District Collector was invited to the resolution through the Deputy Panchayat Officer, Uppinangady. No reply has yet been received. Villagers do not know when such a reply will be received. Accordingly a fresh petition dated 17-7-1954 was presented to the District Collector. As yet no action has been taken on that. Meanwhile the work seems to go on in the locality. On making a search for the notification in this connection to find out whether there has been any inquiry or transfer of the lands from the Revenue Department to the Forest Department, we learn that there has been no such notification. People have not been given a chance to express their views. No enquiry has been held to find out what hardship will be inflicted upon the people of the locality, nor any alternative sites suitable for the purpose with no such injury resulting

to the people have been considered. The area under consideration is less than 100 acres. The unit of atleast 100 acres is essential before any idea of plantation by Forest Department could be conveniently considered.

3 The plot comprises of a high plot with fields surrounding it. It is a converging point for the cattle to go from their sheds for grazing. It also grows thatching grass left over unused by the cattle for villagers to thatch their houses. The villages are poor villages. Villagers are also poor people. They are tenants. Without this reservation and rearing of the forest there is havoc from the wild beasts. The rearing of crops in the plots to a distance of about 2 to 3 miles will be rendered impossible by the rearing of the forest. In the first place there are the hardships caused by the people of the Forest Department. Yet again the wild beasts viz: wild pigs which abound these parts will ruin the crops. It will be serious interference with the food crops grown in the villages necessary for the maintenance of the villagers.

4 We also suggest for the kind consideration by the Government plots comprising in 105/1 and 104/1 of Kuvettu village for the purposes intended to be served. We are desirous of making further representation on any matter that might be relevant.

5 We, therefore, humbly pray of the Hon'ble Minister to order a thorough inquiry into the matter andorder a stay of further work till disposal of this memorial and arrive at early decisions in this behalf. Meanwhile further work by Forest Department may be stayed and order communicated

early.

Any communication in this behalf may kindly be sent to Sri Mundappa Shetty, President, Maladi Panchayat.

We remain,

Your dutiful citizens,

S. Mundappa Shetty

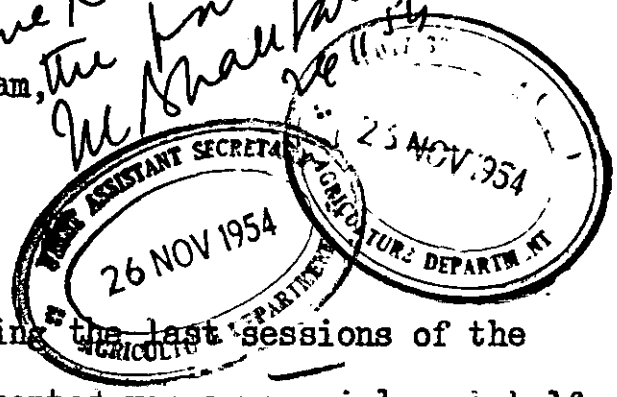
Dated 8th November, 1954

Sri Hon'ble M. Bhaktavatsalam,
Minister for Agriculture,
MADRAS.



Dear Sriman Bhaktavatsalam,

While at Madras during the last sessions of the State Legislature I had presented you a memorial on behalf of the villagers of Maladi, Sonandur, Kukkala and Parenki villages. You were kind enough to receive the same and inform me that an immediate inquiry will be held.

It is extremely clear that the needs and interests of the villagers occupy a pre-eminent place in the structure of the society. Particularly so in the fringe of the Malnad area. Though sufficient time has elapsed nothing appears to have been done. Further I had also requested you to order stay of further proceedings .

Matters are urgent. I am enclosing yet another copy of the same memorial. Grazing facilities for the cattle of the villagers and kumki rights and green leaves for compost are manure of vital importance. May I request you to order immediate attention on the part of the District authorities and request themnot to complicate matters by utilising the time during the inquiry to achieve an accomplished fact which will render the solution difficult and inequitable. I will be grateful for an early reply.

With best regards,

Yours sincerely,

Same as 1914 25

To:

The Hon'ble Minister for Agriculture,
Fort St. George,
Madras.

Memorial of villagers of Maladi, Sonandur, Kukkala and Parenki villages respectfully sheweth as follows:

A surprise has come upon the undersigned villagers in the shape of the Forest Department trying to encroach upon the cattle grazing ground of great importance to the villagers. Plot comprised in Survey No. 30/1 of Maladi village is about 400 acres. A plan of the portion relevant for consideration of matters submitted in this Memorial is enclosed. It contains about 60 acres. From very ancient times plot enclosed by green line with black lead pencil line crossing has served as pasture-ground for all the cattle of Maladi, Sonandur, Kukkala and Parenki villages. About 2000 cattle belonging to 400 householders have all these years been grazing on these grounds. It also contains a --- Panchayat Road as well as some foot-paths. Plots enclosed by red line are all kadim wargs abutting near the area. Needless to say that there are very extensive warg lands to which kumki privileges are attached. Absolute rigid application of the kumki rules cover up the portions marked blue. But on a true and correct interpretation of the kumki right intended for affording facilities for green manure much larger areas will be required. Government has been giving every encouragement to the production of compost manure for which large quantities of leaves are wanted. One naturally takes it for granted that the policy of the Government is ---

to encourage the villagers to rely on this and avail --- themselves of the facilities of taking green leaves from the adjoining unassessed waste. It may kindly be remembered that according to early decisions of the High Court it was held that all land in the District as also in North Kanara as well as in Malabar was private property of the individuals and the Government had no right except to levy Revenue. This, however, has since been revised. But mode of enjoyment has continued as before.

Recently the Forest Department has commenced making preparations to plant some cashew, mango, Doopa and like trees. Work has not progressed. It is just in its --- initial stage. Not an amount exceeding a thousand rupees has been spent till now. The people were taken by surprise in this. Immediately the Malady-Panchayat passed a Resolution on 30-5-1954. A copy of this Resolution with a true translation is also enclosed. Kind attention of the District Collector was invited to the Resolution through the Deputy Panchayat Officer, Uppinangady. No reply has yet been --- received. Villagers do not know when such a reply will be received. Accordingly a fresh petition dated 17-7-1954 was present to the District Collector. As yet no action has been taken on that. Meanwhile the work seems to go on in t h e locality. On making a search for the notification in this connection to find out whether there has been any inquiry or transfer of the lands from the Revenue Department to the Forest Department, we learn that there has been no such --- notification. People have not been given a chance to express their views. No enquiry has been held to find out what --- hardship will be inflicted upon the people of the locality, nor any alternative sites suitable for the purpose with no

such injury resulting to the people have been considered. The area under consideration is less than 100 acres. The unit of at least 100 acres is essential before any idea of plantation by Forest Department could be conveniently considered.

The plot comprises of a high plot with fields surrounding it. It is a converging point for the cattle to go from their sheds for grazing. It also grows --- thatching grass left over unused by the cattle for villagers to thatch their houses. The villages are poor villages. Villagers are also poor people. They are tenants. Without this reservation and rearing of the forest there is havoc from the wild beasts. The rearing of crops in the plots to a distance of about 2 to 3 miles will be rendered impossible by the rearing of the forest. In the first place there are the hardships caused by the people of the Forest Department. Yet again the wild --- beasts viz., wild pigs which abound these parts will ruin the crops. It will be serious interference with the -- food crops grown in the villages necessary for the maintenance of the villagers.

We also suggest for the kind consideration by the Government plots comprising in 105/1 and 104/1 of Kuvettu village for the purpose intended to be served. We are desirous of making further representation on any matter that might be relevant.

We therefore humbly pray of the Hon'ble --- Minister to order a thorough inquiry into the matter and order a stay of further work till disposal of this ----

AGRICULTURE

Sir.

Sub: Forests - Planting of cashew, mango and Dhupa trees - South Kanara division - Protest.

Ref: (1) Government Memorandum No.106196-C.IV/54-1, Agriculture, dated 16.8.1954.
(2) Government D.O.No.106196-C.IV/54-(Agriculture) dated 31.12.1954.

The villagers of Maladi, Sonandur, Kukkala, and Parenki villages, South Kanara District in their petition dated 1.8.1954, communicated with the Government Memorandum cited have represented that due to planting of cashew trees in survey No.30/1 of Maladi village, they have been deprived of their grazing grounds, and have requested that the planting of cashew trees may be stopped.

2. In this connection, I invite attention to Chief Conservator's Ref.No.14604/53-E, dated 24.11.1953 in reply to Government Memorandum No.36791-P and D.III/53-2, Development, dated 15.4.1953, wherein Government were informed that as there were no suitable lands in the Reserved Forests for raising cashew plantations, 100 acres will be planted in the waste lands, and unreserves under the control of the Revenue Department. The Government in their Memorandum No.139815-H-53-3, (Industries, Labour and Co-operation) dated 8.2.1954, ordered to submit a report on the extent planted with cashew in the area.

3. The District Forest Officer, South Kanara division was therefore instructed to take up the experimental planting of cashew over 100 acres in suitable areas under the control of the Revenue Department with the permission of the Collector. Accordingly S.No.30/1 assessed waste land of Malady village under the control of the Revenue Department was selected by the District Forest Officer for raising cashew plantations. As this area is an unreserve the District Forest Officer obtained permission from the Collector, South Kanara, to plant the area. The plot measures 569.29 acres. Out of this an area of 59 acres was planted with cashew and timber species in June 1954. The District Forest Officer has stated that the area planted is negligible when compared to the area left for grazing and removal of thatching grass in the said block. A copy of the District Forest Officer's report dated 25.9.1954, is submitted.

4. The Collector of South Kanara District has stated that the contention of the petitioners that the entire plot S/No.30/1 of Malady village is required for cattle grazing cannot be accepted and that there is no substance in the contention that the plantation has deprived the villagers of green fodder and grazing facilities etc. However the Collector considers that it is not desirable to extend the plantations beyond the 59 acres

p.t.o.

acres planted already and that the area already planted can be notified as reserved land. A copy of the Collector's letter is submitted for information.

5. I agree with the Collector's views and in the circumstances stated, no further action is called for.

The sketch received from Government is resubmitted.

Copy of the letter No. Ref.25927/54-D2, dated 10-1-1955 from the Chief Conservator of Forests, Madras to the Secretary to Government, Agriculture Department, Fort St. George, Madras.

Sub:- Forests - Planting of cashew mango and Dhupa trees south Kanara division -Protest.

Ref:- 1. Government Memorandum No.106196-C.IV/54-1 Agriculture, dated 16-8-1954.
2. Government D.O.No.106196-C.IV/54(Agriculture) dated 31-12-1954.

-o-

The Villagers of Maladi, Sonandur, Kukkala, and Parenki villages, South Kanara District in their petition dated 1-8-1954, communicated with the Government Memorandum cited have represented that due to planning of cashew trees in survey No.30/1 of Maladi village, they have been deprived of their grazing grounds, and have requested that the planting of cashew trees may be stopped.

2. In this connection, I invite attention of Chief Conservator's Ref.No.14604/53-E, dated 24-11-1953 in reply to Government Memorandum No.36791-P and D.III/53-2, Development, dated 15-4-1953, wherein Government were in formed that as there were no suitable lands in the Reserved Forests for raising cashew plantations, 100 acres will be planted in the waste lands, and unreserves under the control of the Revenue Department. The Government in their Memorandum No.139815 H-53-3 (Industries, Labour and Co-operation) dated 8-2-1954, ordered to submit a report on the extent planted with cashew in the area.

3. The District Forest Officer, South Kanara division was therefore instructed to take up the experimental planting of cashew over 100 acres in suitable areas under the control of the Revenue Department with the permission of the Collector. Accordingly S.No.30/1 assessed waste land of Malady village under the control of the Revenue Department was selected by the District Forest Officer for raising cashew plantations. As this area is an unreserve the District Forest Officer obtained permission from the Collector, South Kanara, to plant the area. The plot measures 569.29 acres. Out of this an area of 59 acres was planted with cashew and timber speied in June 1954. The District Forest Officer has stated that the area planted is negligible when compared to the area left for grazing and removal of thatching grass in the said block. A copy of the District Forest Officer's report, dated 25-9-1954, is submitted.

4. The Collector of South Kanara District has stated that the contention of the petitioners that the entire plot S/No.30/1 of Malady village is required for cattle grazing cannot be accepted and that there is no substance in the contention that the plantation has deprived the villagers of green fodder and grazing facilities etc. However the Collector considers that it is not desirable to extend the plantations beyond the 59 acres, planted already and that the area already planted can be notified as reserved land. A copy of the Collector's letter is submitted for information.

5. I agree with the Collector's views and in the circumstances stated, no further action is called for.

The sketch received from Government is resubmitted.

Copy of the letter No. A7. 3542/54. dated 30-10-1954. from the Personal Assistant to the Collector in Charge (Collector) South Kanara to the Chief Conservator of Forests, Madras.

Sub:- FORESTS -Planting of cashew mango doopa and like - trees by Forest Department in S.No.30/1 of Malady village - Protest against.

-o-

Ref:- Government Memorandum No.106196/CIV/54-1 dated 16-8-54.

-o-

The Contention of the petitioners that the entire plot S.No.30/1 of Malady village is required for cattle grazing cannot be accepted as it is reported by the Revenue Divisional Officer Puttur that there is enough land in the villages of Maladi, Sarandur, Kukkala and Paranki which can be used for grazing purposes.

2. The Forest Department has planted trees only in an extent of 59 acres in S.No.30/1 and not in the entire plot as alleged in the petition. The total extent of S.No.30/1 is 569.29 acres.

3. In the interests of proper protection of the plantation and also to minimise the risk of cattle entering into the plantation, I am asking the District Forest Officer to put up quickly a proper fence all round the area planted up.

4. Enquiry shows that the area planted up by the Forest Department viz 59 acres is negligible when compared with the area still available for grazing and thatching grass. There is therefore no substance in the contention that the plantation has deprived the villagers of green fodder grazing facilities for cattle and thatching grass.

5. It is reportedthat the alternative plots suggested by the petitioners viz., S.No.105/1 and 104/1 of Kuvettu villages for use by the Forest Department are unsuitable for the purpose.

6. Enquiry shows that the residents of Madanthyar petah may require a separate grazing ground for their use. I am therefore asking the Revenue Divisional Officer, Puttur to examine the question of reserving the unobjectionable portions of S.No.85/1 and 168/1 of Parenki village and also a suitable portion of S.No.96/1 of Malady village which is close to S.No.30/1.

7. The petitioners have also represented that a buffer area of 100 yards from the kumki limits to the area proposed to be reserved for the Forest Department may be provided with a view to prevent wild animals destroying their cultivation and to prevent the Forest Department for claiming their right over kumki areas at a later date. It is therefore proposed to impose a condition which reserving the area planted up that the Forest Department should not claim any buffer area over the kumki portions and that all the kumki privileges should remain unaffected by the reservation of the land. I am consulting the Dt. Forest Officer whether he has any objection to this proposal.

8. The allegation that there is a Panchayat Road

Road in S.No. 30/1 is not true. It is reported that the Panchayat Board road existing in the plot passes outside the area now taken up by the Forest Department for plantation, and a portion of the said road which has not yet been formed and also the existing foot path could be diverted and taken outside the block without inconvenience.

9. The petitioners have contended that the High Court has held that all land in the district is private land and that the Government has no right except to levy land revenue. This contention does not deserve any consideration as Government land has not so far been declared as private land by any order of the Government.

10. The allegation that no chance has been given to the villagers to express their views in regard to the transfer of the plot to the Forest Department does not also deserve serious consideration in view of the fact that the Forest Department has been permitted to plant trees only in the vacant non kumki portions of the Government land ad the villagers have no legal right over non kumki land and their concurrence is unnecessary for the use of the plot for a Government purpose when the Revenue Divisional Officer has found that entry into non kumki portions of the plot by the Forest Department is unobjectionable.

11. Enquiry has now shown that it is not desirable to extend the plantations of the Forest Department further. I am therefore asking the District Forest Officer not to extend the planting of trees further, as no additional extent beyond the area already planted up viz., 59 acres can be made available for the use of the Forest Department. The area already planted up viz., 59 acres in S.No.30/1 of Malady village will be notified as reserved land after the S.D. records are received from the Revenue Divisional Officer. Puttur and after the District Forest Officer's remarks in regard to the question of buffer area are received.

12. A copy of the petition dated 17-7-54 from the villagers is enclosed.

Copy of Ref.G.No.1694/54.D dated 25-9-1954 From the District Forest Officer Mangalore To The Chief Conservator of Forests, Madras, Through the Conservator of Forests, Ootacamund.

SUB: Forests - Belthangady Taluk - Malady village - S.No. 30/1 - Reservation of - representation of the villagers petition

---

REF: Chief Conservator of Forest's Ref.No. 25927/54.D2 dated 30-8-1954.

The Chief Conservator of Forests in his Ref.No.14604/53.D 1 dated 9-11-1953 had ordered that the experimental planting of Cashew over 100 acres should be taken up immediately if suitable areas under the control of the Revenue Department can be secured by arrangement with the Collector. Accordingly S.No.30/1 of Malady village assessedbut unoccupied waste land under the control of the Revenue Department was selected for raising the said Cashew plantations. The plot measures 569.29 acres. An area of 59 acres was planted with Cashew and timber species in June 1954 itself.

2. Before going ahead with the planting work permission of the Collector was obtained to enter upon the land to do do the regeneration work. I enclose a copy of his Ref.A7.3542/54 dated 5-5-1954. The area is an unreserve. All Kumki portions have been excluded. The Shanbhogue (Village Officer) of the village himself pointed out the area and the Survey was done with his assistance. The area planted is negligible when compared to the area left for grazing and thatching grass purpose in the said block. Inspite of leaving sufficient area for grazing and other purposes there was some opposition from the ryots of the vicinity and there was an incident of cutting the planted seedlings stealthily during night and the matter was reported to the Collector.

3. There is no more work to be done in the area now. As such the question of slowing down the work does not arise.

4. As regards the protest from the ryots, enquiry shows that cattle from portion of Malady and Peranky villages only use this particular plot for grazing purpose. The Madanthyar Peta is very close to this block which contains about 21 houses with 134 cattle head. On the whole the cattle from the adjoining houses may be estimated at 400. The cattle from Sonandur and Kukkala villages graze in the A.W. lands available in those villages and do not graze in the block in question. The total cattle head in Malady village is 2195 and an extent of 1283.95 acres ofA.W. lands exist in the village. The total cattle head of Peranky village is 909 and the total extent of A.W. land is 1208.17 acres. The objection is opposed to facts. I enclose a copy of report dated 18.9.54 received by me from the Tahsildar Belthangady after enquiring into the alleged grievances of the villagers.

Sd.T.Achaya,
Dt.Forest Officer, South Kanara.

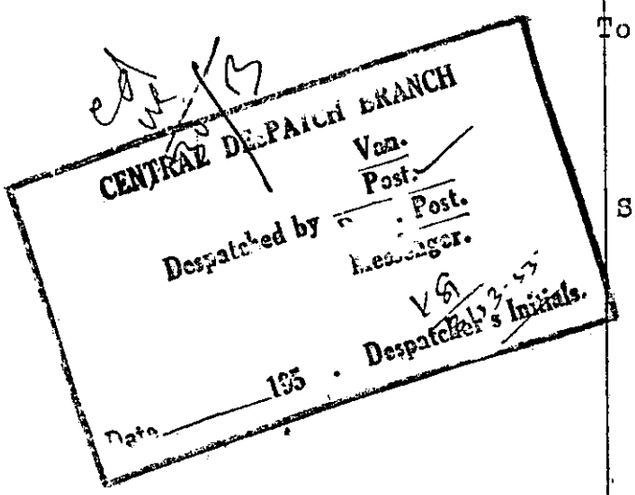
LETTER NO. 106196 CIV/54-6 dated 26/3/55



To

Sri Vaikunta Valiga, B.A.B.L., M.L.A.,
Loretta Vill,
KodialBail
Mangalore(South Kanara)

Sir,

Sub:- Forests--Maladi etc--Villages-South Kanara District--Planting of Cashew, mango, doopa and like trees--Protest against.

Ref:- (1) From the Villagers of the Maladi, Sonandur, Kukkala and Parenki Villages, petition dated 1-8-54.
(2) Your letter dated 8-11-54.

I am directed to State that the representations made in the petition first cited by the Villagers of Maladi and other villages of South Kanara District have been carefully examined in consultation with the C.C.F., ~~the D.F.O., Mangalore~~ and the Collector of South Kanara, and ~~to communicate below the conclusions arrived at on them.~~

to state that in view of the following facts which have been elicited the Govt consider that there is no case for them to interfere in the matter.
Bangalore

Item (1) Planting of Cashew etc.

59 acres out of 569.29 acres in S.No.30/1 were planted with Cashew and timber species in June 1954 at the instance of the Collector of South Kanara in accordance with the general instructions issued by Government that suitable areas in unreserved should be utilised for raising cashew plantation. The allegation that no chance was given to villager to express their views in the matter is not sustainable, as only Non-Kumaki areas over which the villagers have no right were utilised .

(ii) Depriving of grazing facilities.

The area of 59 acres taken up for cashew plantations is too negligible to affect the grazing facilities of the villagers as the total extent of land available in Malady Village is 1283.95 acres and that available in Peranky village is 1200.17 acres when the total strength of cattle in the two villages is only 2195 and 909 ~~only~~ respectively.

(iii) Existence of Panchayat Road.

The existing Panchayat Road is reported to pass actually outside the area taken up by the Forest Department for planting and the plantation will not interfere with the villagers in their use of the road.

Map 41 Cf

(iv) Land held to be a private property.

The contention of the petitioners that the lands in question are private lands and that the Government have no right over them is baseless.

(v) Rearing of crops in the adjoining areas rendered difficult by plantation:-

The contention of the petitioners that the planting of 59 acres of land in S.No.30/1 of Malady Village has deprived the villagers of green manure and grazing facilities is without any substance. The total area of the S No is 569.29 acres. It is not proposed to extend the plantation beyond the present area of 59 acres.

~~(vi) Suggestion of alternative sites for plantation:-~~

Map 3 Cf

P.T.O.

(vi) Suggestion of alternative sites for plantation:-

The alternative plots viz. S.No. 105/1 and 104/1 of Kuvettu Villages suggested by the petitioners for use by the Forest Department are reported to be unsuitable for the purpose. In view of what is stated above there is no need to search for any alternative site.

(viii) Stayal of further plantation:-

In view of what has been stated in regard to item (v) above the question of stoppage of further plantation does not arise.

Agri (CIV) Department.

(Maladi & Villages - S. Kanara District)

Sub: Forests - Planting of cashew, mango, doopa and like trees - protest against.

Ref: From the villagers of the Maladi, Sonandur, Kukkala and Parenki villages, Memorial dated 1-8-1954.

Govt. Memo. No. 106196 CIV/54-1, Agri. dated 16-8-1954.

From Sri B. Vaikunta Baliga, B.A., B.L., M.L.A., Vakil, letter No. Nil, dated 8-11-1954.

In August 1954, the villagers of Maladai, Sonānuur, Kukkala and Parenki villages of S. Kanara Dt. made a representation that the Forest Dept. has commenced making preparations to plant cashew, mango, doopa and like trees in a plot surrounded by fields and that the above plot is a place for the cattle to go from their sheds for grazing. It was also represented that if any plantation is raised in the plot, it would make it impossible to raise food crops in the surrounding plots, ~~as the plantation would serve as harbour for wild beasts from adjoining forests~~ on account of wild beasts. They also suggested some alternative plots for being used for raising plantation and requested the Govt. to order stay of further work of planting.

2. The matter has been referred to the C.C.F. whose final report is awaited. The C.C.F. has also been asked to proceed slowly with the planting of trees with reference to the minutes of M (A) on p. 1 c.f.

3. The further representations received and put up on pp. 29-34 c.f. and the minutes of M (A) thereon on p. 29 c.f. may be perused. The C.C.F. may be reminded demi-officially to expedite his report Subject to orders a draft D.O. is submitted for

approval. 1370

4. A draft letter to Sri Vaikunta Baliga, M.L.A. acknowledging his letter to M(A) is also submitted for approval.

Draft II
p 29 c/f

5. After issue of the drafts the case may be circulated to M (A) with reference to his minutes on p. 29 c.f.

(iii) From the Board of Revenue, L.Dis.No. 1620 /55 dated 18-2-55.

A.S.

The report of the C.C.F. ~~and~~ at p.p.31-33 c.f and the remarks of the Board of Revenue at page 37c.f may be perused.

In their petition dated 1-8-54 the villagers of Maladi, Sonandur, Kukkala and Parenki villages, South Kanara have made the following representation.

A on p 1 cf

(i) that the plot comprised in Survey No. 30/1 of Maladi Village to the extent of about 400 acres, the Forest Department has commenced preparations to plant cashew, mango, doopa and like trees; ~~and~~ that the villagers were taken by surprise and that they were not given a chance to express their views.

B on p 2 cf

B & N on p 2 cf

B on p 1 cf

(ii) that about 2000 cattle belonging to 400 house holds have been grazing all these years on those grounds and the people were enjoying Kumki right intended for affording facilities for green manure and that much hardship has now been caused by depriving them of green fodder and grazing facilities and ~~and~~ by not providing them with any alternative sites.

C on p 1 cf

Q on p 2 cf + D on p 3 cf

(iii) that the area contains a panchayat road as well as some ~~foot-paths~~.

Z on p 1 cf

(iv) that all the land in the District as also in North Kanara and Malabar were held to be private property of the Villagers according

M on p 2 cf

to an early decision of the High Court and that Government has no right except to levy revenue, and though this was revised later, the mode of enjoyment continued as before.

M on p 2 cf

(v) That by the rearing of the forest the rearing of crops in the adjoining plots will be rendered impossible

D on p 3 cf

(vi) that the Government plots comprising 105/1 and 104/1 of Kuvettu Village may be used for the purpose required by the Government and

K on p 3 cf

(vii) that an enquiry may be made into the matter and meanwhile further work by the Forest Department may be stayed.

C on p 3 cf

Sri Vaikunta Baliga, M.L.A. has also pleaded on behalf of the villages in his letter at p.23 c.f.

p 23 cf

With reference to the minutes of M(A) at p.1 c.f. the remarks of the C.C.F. were through the Board of Revenue were called for. The remarks of the C.C.F. are at p.p.31-33 c.f. The C.C.F. has also forwarded the reports of the Collector of South Kanara and the D.F.O., Mangalore which are at p.p.40-41 c.f. and page 47 c.f. respectively. The Board's remarks are at p.37 c.f. The representations of the villagers are dealt with below.

p 21 cf

Item (i) Planting of Cashew etc.

B on p 2 cf

As there were no suitable lands in the Reserved Forests for raising Cashew plantations, under instructions from Government, 100 acres were ordered to be utilised for planting cashews etc. in suitable areas under the control of the Revenue Department with the permission of the Collector. Accordingly S.No.30/1, assessed waste land of Malady village under the control

✓ 2 on p 1 of

para 8 on p p 40-41 of

of the Revenue Department ~~with the~~ was selected by the District Forest Officer for raising Cashew plantations. The area was an unreserved one and out of this an area of 59 acres was planted with Cashew and timber species in June 1954. The total extent of S.No.30/1 is 569.29 acres and the entire extent has not been planted as alleged in the petition. The allegation that no chance has been given to the villagers to express their views in the matter needs no consideration for the reason that the Forest Department has been permitted to plant trees only in Non-Kumki portions of Government land and the villagers have no right over non-kumki land and their concurrence is unnecessary for the use of the plot for Government purpose. The R.D.O has found their entry into non-kumki portions of the plot by the Forest Department is ~~under~~ unobjectionable.

(ii) Depriving of grazing facilities:-

In view of the area ~~of~~ viz. 59 acres planted by the Forest Department being negligible when compared with the area still available for grazing and thatching grass, there does not seem to be any substance in the contention that the plantation has deprived the villagexs of green fodder grazing facilities for cattle and thatching grass. The total cattle in Malady village is reported to be 2195 and an extent of 1283.95 acres of A.W. lands exist in the Village. The total cattle head of Perayky Village is 909 and the total extent of A.W. land is ~~1209.14~~ 1208-17 acres. The objection raised by the villagers is therefore opposed to facts.

(iii) Existence of Panchayat Road:- The allegation that there is a panchayat Road in S.No.30/1 is not true for the reason that the Panchayat Board road existing in the plot passes outside the area now

now taken by the Forest Department for plantation. A portion of the said road which has not yet been formed and also the existing foot path could be diverted and taken outside the block without inconvenience.

(iv) Land held to be a private property:-

The petitioners have contended that the High Court have held that all land in the District as private ~~xkdx~~ land and that Government have no right except to levy land revenue. The contention is not sustainable as Government land has not so far been declared as private land by any order of the Government.

(v) Rearing of crops in the adjoining areas rendered difficult by plantation:-

It has been reported that the plantations have not been extended beyond the 59 acres referred to above and that the lands in which plantation has been made in S.No.30/1 of Malady Village will be notified as Reserved land. The question of the crops in the adjoining areas being affected by plantation does not therefore ~~seem to~~ arise.

(vi) Suggestion of alternative sites for plantation:-

The alternative plots suggested by the petitioners viz. S.No.105/1 and 104/1 of Kuvettu Villages for use by the Forest Department are reported to be unsuitable for the purpose.

(vii) Stayal of further plantation:-

M(A) has minuted that pending enquiry into with the matter, planting work may proceed slowly. The C.C.F. was accordingly instructed in the Memo.No.at p.21 c.f.. It is now reported that in view of the stoppage of further

p.t.o.

<30

106196
CTV/54

plantation beyond 59 acres the question of slowing down the work does not now arise.

In the circumstances reported by theCollector and the District Forest Officer, the C.C.F. has considered that no further action is called for on the representation. The Board of Revenue has also agreed with the Chief Conservator of Forests. It is now for orders whether the views of the Board and the C.C.F. will be concurred with and further action on the representation considered unnecessary. Subject to orders a draft letter to Sri Vaikunta Baliga, M.L.A., with reference to his letter at p.23 c.f. is submitted below for approval.
